

# CONTAMINATION MONITOR SIMULATORS

SAM, PM & PCM

First of its kind in the nuclear industry, this ground-breaking trio of contamination monitor simulators brings the radiation protection training loop full-circle. This training that is best met thru the use of hands-on training using radiation-free simulators that support practical learning techniques and evaluation standards.

## Source-Free Realism in Radiation Protection Training

Offering employees the ability to train as they work drives success in the mastery of tasks associated with their job. Proficiency, safety, performance all contribute to the mutual success of the organization and the people who drive it. The Contamination Monitor Simulators offered by Teletrix are destined to place radiation protection training programs in the nuclear industry at the forefront of technique and effectiveness. Features include:

- *Full-size, lead-free, operational hardware simulations*
- *Operation over a vast simulated detection range*
- *Two-way, wireless remote computer control*
- *All simulator operations are viewable at the control console*
- *Intuitive instructor scenario development and operation*
- *Preset scenario run-thru or manual control manipulation*
- *Instructor-selectable alarms with a vast simulated detection range*

**PREPARE  
PROTECT  
EDUCATE  
INNOVATE**

# TELETRIX RADIATION TRAINING SIMULATORS

**SMALL ARTICLE MONITOR  
SIMULATOR**

- *Lead-free, full-size replica at <500 pounds weight*
- *Single and 2-door models available*
- *Genuine alarm tones and indicators*
- *Variable full-range contamination levels*

**PORTAL MONITOR  
SIMULATOR**

- *Multiple use modes such as Walk-Thru and Stand & Count*
- *Genuine alarm tones, indicators and voice commands*
- *Instructor-selectable individual detector alarms*
- *Full-size replica*

**PERSONNEL  
CONTAMINATION  
MONITOR SIMULATOR**

- *Instructor-selectable zone detector alarms*
- *Simulated Alpha, Beta and Gamma detection and alarm modes*
- *1-Step or 2-Step modes*
- *Genuine alarm tones, indicators and voice commands*
- *Full-size replica*
